- Stitch : 6 ~15st./inch
- Pile Height : HIGH CUT 6~12mm
- Pile Height : MEDIUM LOOP 2~11mm
- Pile Height : LOW LOOP 2~ 8mm
- Production Speed : 450~650RPM
- Number of Clutches : 120 ~ 2000 Clutches

LOOPER & SPRING

MACHINE TYPE HCL - 2 (PHOTOGRAPH BY MATTEL CARPET & RUG USA)

1. TUFTING MACHINE!

Tufting machine is a machine to product carpet.

The working width is 5000mm max.

The pile consists of three pile height.

2. SHARPNESS IMPRESSION!

1. The boundary line between the cut and the loop can be described clearly.
2. Describe the design with complete control because of no limit of pattern repeat.
3. The cut description in each dot is available.
